

# **T<sub>E</sub>X Live 2011**

Karl Berry mail february:  
around july 1 ready for  
dvd building

We shall see. . .

# Multiple repositories

Alpha version (use at your own risk):

<http://www.tug.org/~preining/tlmulti/>

# **New updmap**

Faster by orders of magnitude

# Windows things

Use of right-click menu

For *e.g.* converting bitmaps to eps

# Special install options

Portable via installation GUI  
(perltk and text interfaces)

'From dvd' no longer  
meaningful

# Upgrading

Unix: via script.

Windows: still undecided
